

MANHEIM CONSULTING

May 12, 2009

TO: The National Alliance of Buy Here, Pay Here Dealers (NABD) Conference Attendees:

You can hardly pick up a newspaper or turn on television news these days without hearing about the ongoing challenges facing the automotive industry.

As an independent dealer, keeping up with industry trends and understanding how they may impact your business is more important than ever before.

Manheim Consulting is pleased to offer NABD attendees a complimentary copy of its *Auto Industry Brief*, a monthly resource authored by Tom Webb, Manheim Consulting's chief economist and a speaker at this year's meeting. The *Brief* is designed to recap major macroeconomic and industry trends as well as offer a future outlook.

Should you be interested in subscribing to the monthly *Auto Industry Brief* or are simply looking for more information and services to enhance your business objectives, go to www.manheim.com/consulting.

We hope you find this resource insightful and helpful.

Enjoy the conference.
